

Career & College Search Tools at CVHS

The MDUSD has purchased site licenses for two on-line Programs, **MyRoad™ (CVHS access code 731480)** and **GetInsights (CVHS coupon code F5587AI)**. These codes allow students access to the programs FREE of charge.

MyRoad is a career, major, and college exploration tool. It includes a 'Personality Profiler,' which is an assessment students can take to learn about personality types and receive major and career suggestions, access profiles of academic fields, and articles about more than 450 occupations. 'My College Matches' provides users with a starter list of colleges based on home state and intended major. Students will need to set up an account at www.collegeboard.com. Students who took the PSAT this past fall will need the IO-character code that appears on the top right corner of the PSAT Score Report. Go to www.collegeboard.com/psatextra and click on 'Sign in to My College Quick Start Now.' Other students will need to obtain the handout, 'Setting-up Your My Road Account.' Stop by the College & Career Center or e-mail your college/ career Advisor to obtain the directions.

GetInsights was developed by a local company, and strives to provide a teen-friendly assessment that is a "fun, fast and compelling way for students to gain insights about themselves and their optimal college majors and career paths." Student users can save their profile results to review or consult at a later date. GetInsight's quick, 18-question interest inventory will appeal to younger students, but older students will find it interesting to see if and how their interests change during high school. Each high school in the district has its own 'coupon code' which is required to log in to this program at www.getinsights.com. Your College Advisor can also provide you with a GetInsights Student Worksheet, to help you fully utilize your assessment results and the wealth of information available at this web site.

California CareerZone is a new way to explore jobs and occupations that California has to offer and also learn about what career path interests you. After high school, students will need to work to pay for their desired lifestyle. 'Reality Check' helps students assess their future needs/wants, learn how much money they will need, and which occupations will provide them with sufficient funds to pay for their desired needs and lifestyle. This FREE tool is available at www.cacareerzone.org.

The Bay Area Career Guide (www.bacareerguide.org) is a FREE online resource

to discover, understand and pursue hundreds of career and technical education opportunities at San Francisco Bay Area's community colleges. Taking the Survey helps students match their interests with specific training programs.

Visit the CVHS Career Center more additional information available to CVHS student and their parents regarding college and career searches.

College & Career Center Information

General College & Career Center Info.

The College and Career Center is open to all students and parents and we encourage you to stop by and visit.
